

THE LAW OFFICE OF BERNARD GRIMM

Criminal Defense

The Law Office of Bernard Grimm is a boutique law firm focusing on criminal defense litigation, including government investigations, online misconduct, tax and bank fraud, money laundering, public corruption, and forfeiture proceedings related to these offenses. No matter the stakes, the firm brings passion and experience to challenging and unconventional cases and to clients facing potentially devastating outcomes. Bernie Grimm, recognized for decades as one of Washington's top criminal defense lawyers, has tried over 200 jury cases and received numerous accolades for his courtroom expertise. A former trial attorney with the District of Columbia Public Defender Office and partner at an international Am Law 100 firm, Bernie understands the pressures faced by criminal defendants and relentlessly advocates for his clients. Katie Schellenger's experience as a former federal law clerk and associate at two international Am Law 100 firms has provided her with a unique perspective on the court system and allows her to craft strong and persuasive arguments that are proven to deliver results. The firm is pleased to introduce Ashlend Moss, a 2016 honors graduate of George Washington University Law School, who will sit for the District of Columbia bar examination this July. Ashlend begins a Master of Laws in Taxation program at Georgetown University in the fall, which will nicely complement the firm's other offerings. Together, the legal team at the Law Office of Bernard Grimm provides each client with individualized attention and care while aggressively advocating for the best resolution at each step of the criminal process.
